Decision of the Independent Liquor & Gaming Authority

Application for a new packaged liquor licence – Centennial Vineyards

We **approve** the application above under section 45 and 72I of the *Liquor Act 2007* (**the Act**) – with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Approved manager or individual licensee

The licence cannot be exercised until the Authority or Liquor & Gaming NSW is notified that:

- the licence is transferred to an individual licensee, or an approved manager is appointed; and
- the licensee or approved manager is a suitable and qualified person.

Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

Our main findings

The local community for the purposes of this decision is the suburb of Bowral. The broader community is the Local Government Area (**LGA**) of Wingecarribee.

The applicant sought to operate a standalone packaged liquor licence at Centennial Vineyards in Bowral, a winery in the Southern Highlands, producing award-winning wines, hosting tourism and dining experiences, and maintaining a strong wholesale presence.

We discussed Council's proposal to impose a specialised liquor products condition. We agreed that the condition would add an unnecessary bureaucratic burden without significantly reducing the risk of harm.

We are satisfied that the proposal would benefit the local and broader communities, and visitors to the winery by providing increased convenience and choice.

Social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- high-density crime hotspot in the suburb for alcohol-related assault and malicious damage to property, and medium-density crime hotspot in the suburb for non-domestic assault and low-density crime hotspot in the suburb for domestic assault
- incident rate for alcohol-related non-domestic assault being higher in the suburb than in NSW¹
- rate of packaged liquor licences being higher in the suburb and LGA than in NSW¹
- rate of alcohol-attributed deaths in the LGA being higher than in NSW.

However, we note that the below factors weighed in favour of approval of the application, and may also partially or fully mitigate some of the risks identified above:

- there were no objections from government agencies or the community
- the incident rates for alcohol-related domestic assault, malicious damage to property and alcohol-related disorderly conduct are lower in the suburb and LGA than in NSW and the incident rate for alcohol-related non-domestic assault is lower in the LGA than in NSW¹
- Socio-Economic Index for Areas (SEIFA) data indicates an above average level of socio-economic advantage and disadvantage in the suburb and LGA compared to other communities in NSW²
- the rate of alcohol-attributed hospitalisations in the LGA is lower than in NSW
- the proposed premises is not located in the vicinity of another full packaged licence
- the proposed premises has reduced trading hours, closing at 6:00pm
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

¹ Both the suburb and LGA are significant tourist destinations, with local, state, national and international visitation, increasing the population of the area compared to the local residential population. This additional visitation above the residential population may skew both crime and licence saturation statistics.

² Research shows that the association between liquor outlet density and assaults is stronger in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024)).
