## Decision of the Independent Liquor & Gaming Authority

### Application for a new hotel (full) licence with minors' area authorisation – The Great Western Hotel

We **approve** the application above under section 45, 72I and 121 of the *Liquor Act 2007* (**the Act**) – with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

### Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

## Our main findings

The local community for the purposes of this decision is the suburb of Orange. The broader community is the Local Government Area (**LGA**) of Orange.

The applicant sought a new hotel licence with a minors' area authorisation on the ground floor for a premises in Orange. The proposed premises will operate under reduced trading hours for consumption on premises and take away liquor sales to be available over the main bar.

The hotel will offer accommodation on the first floor; however, these rooms will not be licensed. There will be no electronic gaming machines operated at the proposed premises and the applicant did not object to the imposition of a condition to this effect.

There is an existing hotel licence at the proposed location (LIQO660037202) which will be surrendered on approval of the new licence.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

### *Social impacts*

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- proposed premises being located in a high-density crime hotspot for all categories we considered
- incidence of all crime categories we considered being higher in the suburb and LGA than in NSW
- rate of hotel (full) licences and total outlet density being higher in the suburb and LGA than in NSW
- incidence of alcohol-attributed deaths in the LGA being higher than in NSW
- percentage of Aboriginal and Torres Strait Islanders (**ATSI**) population in the suburb and LGA being higher than in NSW<sup>1</sup>.

However, the below factors weighed in favour of approval of the application and may also partially or fully mitigate some of the risks identified above:

- there were no objections from government agencies or the community
- the incidence of malicious damage to property is on a two-year downward trend in the suburb and LGA
- the City of Orange acts as a service centre for surrounding rural properties in the LGA and is also a tourist destination in the region, resulting in visitation that increases the population well above the local residential population. This may skew both crime and licence density statistics which are calculated using residential population figures alone
- the hotel (full) licence proposes to open under reduced trading hours with no electronic gaming machines
- the proposed licensee currently operates an on-premises restaurant at the venue with no adverse compliance history
- the rate of alcohol-attributed hospitalisations in the LGA is lower than in NSW

---

<sup>1</sup> Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI and in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024)).

- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.
