Decision of the Independent Liquor & Gaming Authority

Application for a new packaged liquor licence with extended trading authorisation – Hanaromart Mt Druitt

We **approve** the application above under sections 45, 59, 72I and 90B of the *Liquor Act 2007* (**the Act**) — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Statement of reasons

McKell Building, 2-24 Rawson Place Haymarket NSW 2000 | GPO Box 4012 Sydney NSW 2001
office@ilga.nsw.gov.au | ilga.nsw.gov.au | ABN 42 496 653 361

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

Our main findings

The local community for the purposes of this decision is the suburb of Mount Druitt. The broader community is the Local Government Area (**LGA**) of Blacktown.

The applicant sought approval to operate a small, packaged liquor outlet within the Hanaromart Asian supermarket in Mount Druitt, offering a restricted range of predominantly Asian beverages.

As the supermarket operates inside a shopping centre without direct street access, the applicant requested adjusted trading hours, including a varied 6-hour closure period and a Sunday extended trading authorisation (**ETA**), to align with existing supermarket hours.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- high-density crime hotspots in the suburb for all categories we considered
- incidence of all crime categories considered being higher in the suburb than the corresponding statewide rates for New South Wales
- incidence of alcohol-related domestic assault and malicious damage to property being higher in the LGA than the corresponding statewide rates for New South Wales
- Socio-Economic Indexes for Areas (SEIFA) data indicating that the suburb exhibits a below average level of socio-economic advantage and disadvantage compared with other communities across New South Wales¹

However, we note that the following factors weighed in favour of approving the application and may also partially or fully mitigate some of the risks identified above:

- no objections were received from government agencies or from members of the community
- the incidence of alcohol-related non-domestic assault and alcohol-related disorderly conduct are lower in the LGA than the corresponding statewide rates for New South Wales
- the saturation rate of PLLs and total outlet density in both the suburb and the LGA is lower than the rate for New South Wales
- the rate of alcohol-attributed hospitalisations in the LGA is lower than the corresponding statewide rate for New South Wales
- the small-scale liquor sales area
- data indicating that the LGA exhibits an above average level of socio-economic advantage and disadvantage compared with other communities across New South Wales

¹ Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI and in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2024)).

- Hanaromart is part of an established chain of supermarkets with multiple stores across different states and no reported history of non-compliance over the last 5 years in New South Wales
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- the legislation
- certificate of advertising
- a Statement of Risks and Potential Effects
- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crime rates and health issues in the local and broader communities
- L&GNSW compliance materials
- stakeholder submissions and the applicant's response to them.

We also considered [Guideline 6](#) to assess the likely overall impact to the local and broader community and [Guideline 10](#) to assess the sale of liquor in a supermarket.

This decision will be published in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.

Opportunity for review

The applicant and anyone who was notified of the application and made a submission, may apply to [NCAT](#) for a review of the decision.

An application for review must be made no later than 28 days after the decision is published on the website. There is a fee to lodge the application.

For more information, please contact the NCAT Registry at Level 10 John Maddison Tower, 86-90 Goulburn Street Sydney or visit the NCAT website.
