Decision of the Independent Liquor & Gaming Authority

Application for a new packaged liquor licence – Ausmandu Liquors

We **approve** the application above under section 45 and 72I of the *Liquor Act 2007* (the Act) — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Approved manager or individual licensee

The licence cannot be exercised until the Authority or Liquor & Gaming NSW is notified that:

- the licence is transferred to an individual licensee, or an approved manager is appointed; and
- the licensee or approved manager is a suitable and qualified person.

Mixed-use checkouts must be closed outside licensed hours

Under section 103(2) of the Act, any counter or place used to sell or supply liquor under the licence, including any mixed-use checkouts in the liquor sales area, must be closed to the public outside the licensed trading hours.

Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

Our main findings

The local community for the purposes of this decision is the suburb of Blacktown. The broader community is the Local Government Area (**LGA**) of Blacktown.

The applicant sought to operate a new packaged liquor licence (**PLL**) incorporating a small liquor sales area (**LSA**) of 20m² within an existing Nepalese grocery/supermarket and butcher shop known as Ausmandu Bazaar Blacktown, located on a main retail street within a commercial and pedestrian area of Blacktown, close to major transport links and other retail premises.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Social impacts

The proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the crime statistics:

- high-density crime hotspots in the suburb for all categories we considered
- incidence of alcohol-related domestic assault and malicious damage being higher in the suburb and LGA than the rates for NSW
- incidence of alcohol-related disorderly conduct being higher in the suburb than the rates for NSW.

However, the factors below weighed in favour of approval of the application and may also partially or fully mitigate some of the risks identified below:

- no objections were received from government agencies or from members of the community
- the incidence of alcohol-related non-domestic assault being lower in the suburb and LGA than the rates for NSW
- the incidence of alcohol-related disorderly conduct being lower in the LGA than the rates for NSW
- Socio-Economic Indexes for Areas (**SEIFA**) data indicating that the suburb and LGA exhibit an above-average level of socio-economic advantage and disadvantage compared with other communities across NSW¹

¹ Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI and in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2023)).

- the saturation of PLLs and total outlet density in both the suburb and LGA being lower than the rate for NSW
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- the legislation
- certificate of advertising
- a Statement of Risks and Potential Effects
- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities
- L&GNSW compliance materials
- stakeholder submissions and the applicant's response to them.

We also considered [Guideline 6](#) to assess the likely overall impact to the local and broader community and [Guideline 10](#) relating to the sale of liquor in supermarkets.

This decision will be published in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.

Opportunity for review

The applicant and anyone who was notified of the application and made a submission, may apply to [NCAT](#) for a review of the decision.

An application for review must be made no later than 28 days after the decision is published on the website. There is a fee to lodge the application.
