Dear Ms Beath

Application No.	APP-0015718830
Applicant	BRIDGE STREET OPERATING PTY LTD
Application for	New hotel (full) licence with extended trading authorisation and minors' area authorisation
Application date	22 December 2025
Decision date	17 June 2026
Proposed licence name	Vito's
Proposed trading hours	<u>Consumption on premises</u> Monday to Sunday 10:00 AM – 2:00 AM <u>Take away</u> Monday to Saturday 10:00 AM – 12:00 AM Sunday 10:00 AM – 10:00 PM
Proposed premises	Burns Philp Building 2/5-11 Bridge Street Sydney NSW 2000
Legislation	Sections 3, 11A, 12, 14, 15, 16, 40, 44, 45, 47B, 49, 72I and 121 of the <i>Liquor Act 2007</i>

Decision of the Independent Liquor & Gaming Authority

**Application for a new hotel (full) licence with extended trading
authorisation and minors' area authorisation – Vito's**

We **approve** the application above under section 45, 49, 72I and 121 of the *Liquor Act 2007* (**the Act**) — with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Statement of reasons

We are satisfied that the overall impact of approving the application will be consistent with the objects of the Act and will not be detrimental to the wellbeing of the local or broader community.

Our main findings

The local community for the purposes of this decision is the suburb of Sydney. The broader community is the Local Government Area (**LGA**) of the City of Sydney.

The applicant sought approval for a new full hotel licence with extended trading authorisation and minors' area authorisation within the heritage Burns Philp Building in the Sydney CBD Entertainment Precinct. The proposal is for a food-led venue offering a curated liquor selection, including takeaway sales, but no gaming facilities, TAB, or Keno. Trading hours are permitted to 2am under a two-year trial development consent, and the proposed hotel would replace a relocated on-premises licence in a highly saturated hospitality area with strong public transport access.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because:

- the proposed premises are in high-density crime hotspots for all categories we considered
- the incidence of all crime categories examined is higher in the suburb and LGA than the rates for NSW
- the saturation of hotel (full) licences and total outlet density is higher in the suburb and LGA than the rate for NSW¹²³
- the incidence of alcohol-attributed hospitalisations in the LGA is higher than the rate for NSW.

However, the factors below weighed in favour of approval of the application, and may also partially or fully mitigate some of the risks identified above:

- no objections were received from government agencies or from members of the community
- the proposed premises are located within the Sydney CBD Entertainment Precinct, a significant commercial district and tourist destination that attracts a high number of tourists, other visitors, and workers compared to the local residential population. This skews both crime and licence density statistics, which are calculated using residential population figures alone
- Socio-Economic Indexes for Areas (**SEIFA**) data, which combines Census data such as income, education, employment, occupation, housing and family structure to summarise

¹ High levels of outlet-density have been shown to be positively associated with higher levels of alcohol-related harm, including alcohol-related domestic and non-domestic assaults (Livingston et al., 2016; Jiang et al., 2023).

² High levels of hotel and packaged liquor outlet density have been shown to be positively associated with higher rates of domestic and non-domestic assault rates (Donnelly et al., 2023).

³ High levels of hotel outlet-density, and highly concentrated clusters of hotels in an area, have been shown to be positively associated with higher rates of alcohol-related non-domestic assault (Livingston, 2008a, 2008b; Jiang et al., 2023).

the socio-economic characteristics of an area, indicate that the suburb and the LGA exhibit an above-average level of socio-economic advantage (and disadvantage) compared with other communities across NSW⁴

- the incidence of alcohol-attributed deaths is lower in the LGA than the rate for NSW
- the harm minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1, may mitigate the risk of alcohol-related harm.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- the legislation
- the certificate of advertising
- the Statement of Risks and Potential Effects
- the plan of the licensed premises and any authorisations
- the plan of management for the licensed business
- the development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities
- L&GNSW compliance materials
- stakeholder submissions and the applicant's response to them.

We also considered [Guideline 6](#) to assess the likely overall impact to the local and broader community.

This decision will be published in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.

Opportunity for review

The applicant and anyone who was notified of the application and made a submission, may apply to [NCAT](#) for a review of the decision.

An application for review must be made no later than 28 days after the decision is published on the website. There is a fee to lodge the application.

For more information, please contact the NCAT Registry at Level 10 John Maddison Tower, 86-90 Goulburn Street Sydney or visit the NCAT website.

⁴ Research shows that the association between liquor outlet density and assaults is stronger in areas with higher percentages of ATSI and in areas with lower socio-economic status (Association of liquor outlet density with domestic and non-domestic assault in New South Wales; Jiang, H., Riordan, B., Laslett, A-M., Livingston, M., Lee, K., James, D., Stearne, A., & Room, R. (2023)).
